NATIONAL WORKSHOP

on

*“Advances in Materials, Processing
and Characterization”*

26th –30th August, 2019

Organized By

**Department of Metallurgical and
Materials Engineering**

**National Institute of Technology
Raipur-492 010 (Chhattisgarh)**

About the Institute:

National Institute of Technology, Raipur situated in the capital of Chhattisgarh, has proven to be 'avant-grade' in the field of science and technology over past few decades in this region. With sweet memory of foundation ceremony by our president Hon'ble Dr. Rajendra Prasad on 14th September 1956. The institute started with two departments namely Metallurgical and Mining Engineering. Later the inauguration of the Institute building was done by our Prime Minister Hon'ble Pt. Jawahar Lal Nehru on 14th March 1963. From 1st December 2005, the institute has become the National Institute of Technology. It is well connected with Mumbai, Delhi and all metro cities by regular flights and is on the main Howrah-Mumbai railway route. The institute is 5 km from the Raipur railways station and 18 km from airport on NH-6, the Great Eastern Road.

About Department:

The Department of Metallurgical and Materials Engineering is one of the premier branches of the Institute serving to cater the need of trained manpower to the metallurgical industries located in and around central part of India since the time of its inception. The department provides an outstanding research environment and offers academic program leading to award of B. Tech and PhD degrees.

Venue:

Department of Metallurgical and Materials Engineering, National Institute of Technology, G.E. Road, Raipur-492010, (C.G.), INDIA

Objectives of the Course

This workshop will give excellent academic forum for sharing knowledge and results in theory, methodology and applications of materials science and mechanical engineering. The workshop looks for significant contributions to all major fields of materials science and mechanical engineering. The aim of the workshop is to provide a platform to the researchers and practitioners from both academia as well as industry to meet and share cutting-edge development in the fields.

The lectures will be delivered by distinguished experts in their field of materials, it's processing and characterization, with focus on latest advances in the field. This five day course will include theory lectures, special case studies and Hands on laboratory classes. The contents of this workshop are designed for the UG/PG students, faculty and young researchers for enhancement of their knowledge with current advances in the field.

Workshop Themes:

The workshop will cover but is not limited to following topics:

- A. Advanced materials (Smart materials, energy materials, metamaterials etc.)
- B. Advances in Material Processing (additive manufacturing etc.)
- C. Latest progress in material testing and characterization
- D. Modeling and simulation in Material Engineering
- E. Manufacturing in industries

Targeted Participants:

- U.G./ P.G. /Ph.D. students
- Faculty members
- Industry members

Selection:

Since the number of seats is limited to 40, the selection will be made on **first cum first basis**. However, the preference will be given to the outside participants. Intimation regarding selection will be sent to the candidates by e-mail as per the schedule.
