The **E-CELL** of NIT RAIPUR is a student-run non-profit organization which takes care of all the entrepreneurship related events on campus. The objective is to expose the students to entrepreneurship as a career choice; to develop strong work ethics and manifest their latent Entrepreneurial spirit. The Entrepreneurship Cell (known popularly as the E-Cell) is an initiative of some visionary self-motivated students. It was established with a noble aim of reducing the industry-institution divide by making the rift, seem lesser. This would be done by making the interaction between the two parties viable through increased frequency and taking effective measures to continue to foster a healthy relationship between them.

We aim at manifesting the latent entrepreneurial spirit of the young students. We at E-Cell host various workshops, speaker sessions, innovative games, competitions for the aspiring entrepreneurs and support them by providing necessary resources such as seed funding, mentoring, consultancy and networking.
