"It takes an adult 7 days to 7 weeks to make an impact on a student's life, but it takes another student of their age or slightly older 7 seconds to 7 minutes to make a difference."

~Anonymous SAHYOG is a student body of NIT Raipur students with the primary objective of providing constructive and positive interaction, guidance to junior students by senior students and also it will work as a link between students and counselling cell.

Mentoring is a particular form of relationship designed to provide personal and professional support to an individual. The mentoring relationship provides a developmental opportunity for both parties and can thus be of mutual benefit.

In a nutshell, a student mentor's role may be perceived to be facilitative, supportive and developmental for the student community in general and the first year students in particular.
