Title of Lecture: “Power BI and its Use Cases”

Event Summary:

The purpose of this Industry-Expert Lecture is to make aware the BTech/MTech/PhD students with Power BI tool and to learn the different uses cases with help of this tool. Ms. Ms. Nikhitha Bhandari (Software Engineer, Schlumberger India Technology Centre Private Limited, Pune) has shared insights about the Power BI tool and discuss some use cases with live demo using this tool. In addition, she has also discussed industrial internship and career opportunities for fresh graduate students in software industries.

Event Photographs:

The screenshot shows a Google Meet interface during a presentation. The main slide is titled "What is Power BI?" and lists the following points:

- **Power BI is a Business Analytics Tool:** Transforms raw data into interactive visualizations and reports.
- **Connects to Multiple Data Sources:** Seamlessly integrates with Excel, SQL, cloud services, and more.
- **Creates Interactive Dashboards:** Real-time data updates with customizable charts, graphs, and maps.
- **Empowers Data-Driven Decisions:** Simplifies complex data for better insights and informed decision-making.
