

SURESH HAWARE

**A Nuclear Scientist with Humble Heart,
A Business Leader, Administrator, Philanthropist**

SURESH HAWARE

Personal Details :

Name Born

Dr. Suresh Kashinath Haware

1st March 1956 (age 67), at village Pathrot, Dist. Amravati Maharashtra (India)

Education

B.Sc. (1975) Nagpur University, **B.Sc.Tech.** (Chemical Technology, 1978), LIT-Nagpur, Nagpur University. **Post Graduation Studies in Nuclear Engineering** at BARC Training School, 1979. **M.A.** (History, 1990, Mumbai University). **Ph.D.** in **Affordable Nano Housing**, Mumbai University, 2016

Academic Excellence

Gold Medalist in Engineering, of Nagpur University, 1978

Merit Rank holder in Engineering, of Nagpur University, 1978

Professional Excellence

27 Years as Senior Nuclear Scientist with the Department of Atomic Energy.

37 Scientific Research Papers, published in International & National Journals

Leader of Indian Delegation of Nuclear Scientists to I.A.E.A. Vienna, Austria, 1996.

Business

30 Years in the Housing Industry.

Currently C.M.D., Haware Properties and Group of Companies.

Founder President, Maharashtra Chamber of Housing Industry, Navi Mumbai

Social

Four Academic Schools

100 Book Banks and Self Study Centers

7 Charitable Dispensaries

10 Ambulance Projects through NGOs

4 Schools for children of Construction Labors

President, Nagarik Sahayata Samiti.

President, New City Education Trust

Political

Currently, Special Invitee Member of the BJP Maharashtra State Committee

Ex President, Thane Vibhag, Bharatiya Janata Party in Maharashtra

Contested Maharashtra Legislative Council Elections in 2008

Contested Maharashtra Legislative Assembly Elections in 2009

Chairman, Special Committee appointed by BJP Maharashtra on proposed Jaitapur Nuclear Power Plant, to study in detail and suggest the policy decision to be adopted.

Public

Ex Chairman, Shri Saibaba Sansthan Trust, Shirdi-Maharashtra (India) since 2016 - 2020

Appointments

Ex Trustee, Jawaharlal Nehru Port Trust, Navi Mumbai (India) May 2014 - July 2016

TV Shows

The Suresh Haware Business Show, Serial on Zee24Taas, 20 episodes, 72 Lakh viewership

The Suresh Haware Startup Show, on 6 news channels, 20 episodes, more than 2 Crore viewership

Sarvansathi Ghare-Suresh Haware, serial on affordable housing on Zee24Tass news channel, 20 episodes with viewership of 90 Lakhs.

Books

Written 18 Books viz. 'Udyog Tumcha Paisa Dusryacha', "Udyog Karava Aisa", "Startup Mantra", "Shidori", "Saiseva" in Marathi-Hindi-English & "Nano Housing", "Doing Business Without Your Money" and "Business Karna Apne Paise Bina" in Hindi, "The Sai Way", Shidori-2, Startup Business Guide, My BARC Days, Temple Management, Patra Nave Mitra etc.

Mountaineering

Dr Haware has scaled island Peak Mountain in Nepal up to 6,100 m. He has trekked up to Mount Everest Base Camp.

Contact

DETAILED PROFILE

Dr. Suresh Kashinath Haware, a Nuclear Scientist, has worked with the Department of Atomic Energy, BARC for more than 27 years. He was heading the popular & 2nd largest temple in India- “Shri Saibaba Sansthan Trust, Shirdi” as Chairman. The Government of Maharashtra had accorded him the

status of a State Minister. He is leading his **Family Construction Business** in Mumbai. He is renowned in the industry for the innovation of Nano Housing concept in India. He is an Ethical Business Leader, a Strong Administrator, a Philanthropist and a Social Entrepreneur.

STRUGGLE

Suresh Haware was born in a farmer's family in a small village Pathrot in Amravati District of Maharashtra on 1st March 1956. His childhood days were full of farming activities and hard work. Having lived in a kuchha house made with mud, Haware realised the value of having one's own pucca house. This belief was further strengthened when he came to Mumbai in 1978 and lived in a 10'x10' rented house for five years. This experience ignited in him a resolve that everyone should have a pucca house. He worked hard and set up goals for himself. Through painstaking efforts and dedication, he helped establish Haware as a household name in the Housing Industry. Business of the housing industry in a city

like Mumbai is full of challenges. He not only accepted it but with application of his scientific mind, he innovated the revolutionary concept of Nano Housing, taking up **HOUSING FOR HOMELESS** as his mission. By focusing on building houses for the economically weaker section and lower-middle class people, he has by now successfully delivered houses to over 45000 families, contributing to Honourable **PM Modiji's dream of Housing For All**. This is an uncommon achievement of a common man. He continues working on his mission and has a goal to construct 1 lakh affordable nano homes for the urban poor in the next 10 years.

PASSION FOR EDUCATION

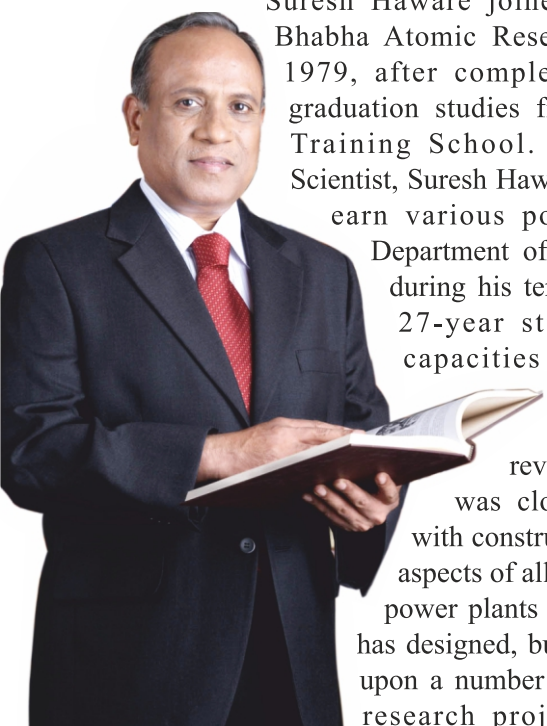

Although his father was a farmer by profession, he was a great visionary. His father was a staunch leader of Bharatiya Jansangh. Suresh Haware studied in rural Zilla Parishad school and dreamt of studying further in spite of financial difficulties. He earned his degree of B.Sc. (1975). His dreams were shattered when **his father was detained under MISA during the Emergency in 1975**. He regained hope upon receiving an admission call for engineering at LIT Nagpur based on good academic performance. Economic conditions at home were not favourable. He secured an Old CP & Berar scholarship and worked part time to meet expenses. He completed **B.Sc.Tech. in Chemical Technology** (1978) from Nagpur University. He was the merit

rank holder of Nagpur University. He excelled securing Barrister Sheshrao Wankhede **GOLD MEDAL** in engineering from Nagpur University.

Thereafter, he successfully completed **Post Graduation studies in Nuclear Engineering** at Bhabha Atomic Research Centre Mumbai and served there as a Nuclear Scientist for 27 years. With passion for education he completed **MA in History** in the year 1990, but always wanted to complete his doctoral studies. At the age of 60 after spending many decades in the housing industry, he finally completed his **PhD in Affordable Nano Housing from Mumbai University** in the year 2016. He also helped his younger siblings get educated.

CAREER AS A NUCLEAR SCIENTIST...

Suresh Haware joined the coveted Bhabha Atomic Research Centre in 1979, after completing his post-graduation studies from the BARC Training School. As a Nuclear Scientist, Suresh Haware moved on to earn various positions in the Department of Atomic Energy during his tenure. During his 27-year stint in various capacities as a **Nuclear**

Scientist at this internationally

revered Institute, he was closely associated with construction and safety aspects of all types of nuclear power plants across India. He has designed, built and operated upon a number of experimental research projects including physical facilities and has a

proven track record in the operation and the safety of Indian nuclear power plants.

Softwares: He had a unique combination as an excellent theoretician and also an expert experimentalist. He designed and developed the nuclear reactor simulation and analysis computer codes (Softwares) **CONTRAN and HYRECAT**.

These help to simulate and analyze a variety of safety and accident scenarios in operation of Indian nuclear power plants and have been part of validation exercises at international levels. He is fortunate in the sense that the nuclear reactor system simulation and analysis computer codes designed and developed by him are in use even today at the Department of Atomic Energy for the most important purpose of licensing the newly built nuclear power plants in India.

Research: He has been extensively cited for his 37 scientific technical research papers published in coveted national and international journals and has also presented the same at international conferences. He has created a platform for adoption and use of a number of computer system analysis codes for safety and accident analysis of Indian nuclear power plants

such as NAUA for accidentally released Aerosol analysis, GOTHIC, PACSR, RELAP for thermal hydraulics etc.

Participating in a number of Project Review Safety Committees for licensing and operation of nuclear power plants, existing and forthcoming, he actively worked on preparation of more than 20 Engineering design safety codes and guides for operation of these nuclear power plants and safety systems for Atomic Energy Regulatory Board (AERB), Government of India.

IAEA Vienna: He led an Indian delegation of Nuclear Scientists to International Atomic Energy Agency (IAEA), Vienna, Austria in 1996 for a fortnight of deliberations on state-of-the-art nuclear safety research. His presentation was included in the International Safety Guide document brought out by IAEA, on PSA Level-2 Studies. It was a unique gathering of reputed and recognized Nuclear Scientists from all over the world. Suresh Haware is considered as an authority in the field of nuclear reactor safety research and retrofitting of the operating nuclear power plants for enhancing safety standards.

Nuclear Submarine: Suresh Haware has a coveted honor of working on the design and development of a Nuclear Submarine, a joint project between Department of Atomic Energy (DAE) and Indian Navy. The first such Nuclear Submarine viz. INS

Arihant, was recently launched by Indian Navy, which is powered by a Nuclear Power Reactor. It has to be noted that the design of this nuclear submarine has used the research of Suresh Haware. The second nuclear powered missile submarine viz. INS Arighat is in the making. With this event, India has joined a strong group of six countries in the world having the Nuclear Submarine.

Associates: With an inquisitive and analytical mind, he worked with luminaries in Indian Nuclear Research such as Dr. A. P. J. Abdul Kalam, Dr. Anil Kakodkar, Dr. Raja Ramanna, Dr R. Chidambaram as

well as Dr. R. K. Sinha, of the Atomic Energy Commission (AEC), Government of India.

with Dr. Anil Kakodkar

CAREER IN BUSINESS...

After VRS from the Department of Atomic Energy, Suresh Haware is heading his family construction business aimed at providing “**Housing for All**”. Even

in business, he has been innovative and expressed his leadership qualities. He is recognised as an ethical businessman.

Pioneer of Nano Housing...

Theory: The innovative concept of nano housing was pioneered by Suresh Haware in critical times in the history of the housing industry. The recession of the year 2008-09 prevailed as an impact of the fall of Lehman Brothers in the USA. He says humbly that his Nano Housing concept is inspired from the design of the Nano Car, which is small in size and small in price. Suresh Haware's design of a Nano House is also small in size and small in price. By careful & efficient planning, he reduced the size of a house by 25% while maintaining its functionality and simultaneously using technology and other means, reduced the selling rate by 25%. In effect the overall price of a house got reduced by almost 50%. The innovation of nano housing is based on 13 parameters including the Blue Ocean Strategy. It is located in a prime locality. It is not a second house or a weekend house. It employs modern technological advances. It has all the luxuries of a modern house. It offers colony life. So, it is the best combination of affordability and luxury.

Practical: Suresh Haware not only envisioned & designed this concept but also put it into practice. The result was surprisingly good. In spite of the prevailing recession, houses were sold like hot cakes. More than a thousand homes were sold within a period of three days. The innovation proved to be largely successful and Suresh Haware

then had to accept another thousand waitlisted bookings. This had re-established the trust of the people. Economically weaker sections could buy their dream house as housing came within their budget.

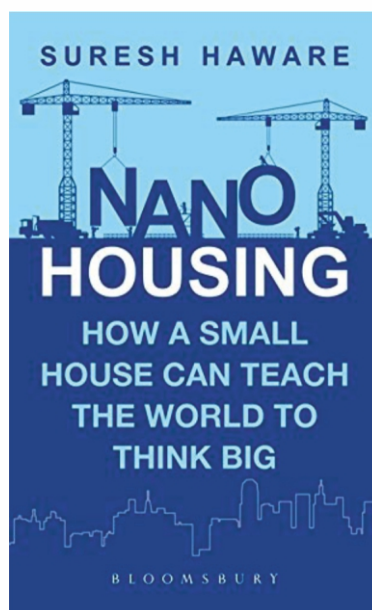

Bottom of Pyramid: He even provided houses to hundreds of tea-sellers, vegetable-vendors, labourers, hawkers, rickshaw-drivers etc. When no Bank was willing to give loans to these buyers he arranged housing finance for them by providing his guarantee. It gave an opportunity

to the common man to fulfill his dream of a home.

Wider Adoption: Following this success, Suresh Haware shared this Nano Housing model in various housing industry forums in Thane, Pune, Nasik, Nagpur, Ratnagiri, Aurangabad, Navi Mumbai and other prominent cities in India. His success story inspired numerous developers. Many developers abandoned their existing plans and adopted Suresh Haware's innovative concept of Nano Housing. A few developers not only discontinued their old plans but also went to the extent of demolishing the erected structures in order to implement the Nano Housing concept, and they too were successful. This was the most successful innovation and had helped to a great extent in repealing the then prevailing recession of 2008-09.

Testimony: JLL, an international research group has studied in 2016 and concluded

that there has been a reduction in the size of a house by an average of 23% in India between the years 2010 to 2015, thus fortifying the nationwide impact of the Nano Housing innovation.

The Book: To make his research widely accessible he authored his most popular book NANO HOUSING internationally published by Bloomsbury. His tireless efforts and conferences across 21 cities helped spread this impactful concept throughout India, promoting development of affordable housing as a sector helping overcome recession in housing and allied industries generating lakhs of jobs. At every new location his Nano Housing projects created growth centres. Numerous developers followed his footsteps and built projects there. He promoted growth of locals into businesses by providing training and opportunities, bringing prosperity in the region.

Pioneering: Suresh Haware has since been known as

the Pioneer of Nano Housing in India. He launched number of projects of Nano Housing in the Mumbai-

Thane region, spanning over 5 million square feet of construction and all of them were highly successful.

Nano Shops /Offices: Thereafter, he innovated a unique concept of Nano Shops and Nano offices. Again, he implemented the concept in reality.

These concepts and designs of Nano Offices and Nano Shops were also highly successful and were adopted by a large number of developers. He says that Nano Houses are the need of the hour. Today there is a huge deficit of more than 65 million houses in India's urban and rural areas (as per census of 2011). It is this powerful Nano Housing concept, which has the potential to fulfill this requirement, while at the same time offering the people affordability and convenience.

Realty Sector...

Suresh Haware has been in the management of real estate business since the last 25 years. In this period, the real estate industry has passed through two cycles of boom and doom. With a vast international exposure and a firm commitment to the bonds that he had with the common people, he has been highlighting the concern of affordable homes for common people.

Timely Delivery: The Haware Group has been a torchbearer in the affordable housing category for low and middle-income group. The need was to be affirmative and to be committed to the timely delivery schedule.

Haware Group was heading for an enviable task of fulfilling the promise of an abode to those who had cherished a dream but did not know how to attain the same. Suresh Haware firmly believes that Nano housing can resolve housing problems in the country to a great extent.

Trust: While providing affordable homes Haware Group also concentrated on creating landmark structures for high-end residential, commercial and industrial use. With more than 150 projects under

their belt in Navi Mumbai, Mumbai, Thane, Raigad and Palghar, the Haware Group is now one of the

most trusted names in the realty sector. Under the commercial arena Haware Group has developed a number of complexes, shopping malls and multiplexes in Navi Mumbai. The state-of-the-art InfoTech Parks in Navi Mumbai are a crowning glory in the sector. He has provided direct and indirect employment to approximately 10,000 people.

Redevelopment: The Redevelopment sector has been a strategic element for the metropolis to compete with major top-class cities of the World.

Haware Group has undertaken and completed more than 25 Redevelopment projects till date and more are on the anvil.

Record: A record number of more than 45,000 homes have been constructed and delivered to satisfied customers. Haware Group has developed around 40 million sq. ft area in aggregate with hundreds of acres of lands being developed for residential, commercial and industrial activities, under various stages of planning & implementation.

SOCIAL ENTREPRENEUR

Suresh Haware is reckoned as a social entrepreneur. His nano housing innovation is great contribution to society. It helped bring down cost of house considerably while providing high quality housing and better lifestyle to people through economies of scale and lower profit margins for developers. The cost came in the budget of a common man and enabled people from weaker sections to realize their dream of owning houses. This has supported **Hon. Prime Minister Shri Narendra Modi's "Housing for All"** mission and generated employment for thousands.

Soldiers-Police Housing: He has always focused on providing high quality affordable housing to people from the bottom of the pyramid. Among others, he has provided houses to more than 350 houses to Soldiers, 3500 policemen, over 5000 bus conductors-drivers, hundreds of army personnel and even to hundreds of tea sellers, labourers, rickshaw drivers, vegetable vendors.

Labour School: He even cares for construction migrant labourers by providing medical dispensaries for their regular health checkup, schooling for their children, facilities for clean drinking water etc. Four charitable schools run by his organisation provide quality affordable education to thousands of children from weaker strata of society.

Skill Development: His skill development institute provided practical vocational supervisory training as electrician, plumber, carpenter, masonry, fitter etc to

hundreds of SSC-HSC failed youth, who became sought-after technician in the housing and other industries.

Creating Entrepreneurs: He was instrumental in the foundation of numerous Business Organisations

developing entrepreneurship and creating employment like Saturday Club Global Trust, Maratha Businessmen Forum, Maharashtra Chamber of Housing Industry Navi Mumbai etc. Known for motivational speeches among aspiring businessmen, he has authored ten books promoting entrepreneurship imbibing the principle "BE A JOB GIVER NOT A JOB SEEKER". Udyog Tumcha

Paisa Dusryacha, Nano Housing and all his books became best sellers benefitting around 18000 youth. He created two motivational TV series with 20 episodes each. This had a viewership of more than 2 crore promoting entrepreneurship.

The Suresh Haware Business Show presented 20 first generation successful businessmen who started their business from scratch and attained pinnacle in the business.

The Suresh Haware Start up Show presented 15 start-ups of young entrepreneurs with innovative ideas.

Sarvansathi Ghare-Suresh Haware a serial with 20 episodes on news channel. He conducted free mentorship seminars and arranged

funding support for young businessmen inspired from these shows. He is considered as an authority in the real estate business strategy formulation.

POLITICAL CAREER...

- Currently, he is Special Invitee Member of the BJP Maharashtra State Committee
- Ex-President, Thane Vibhag (7-Districts), Bharatiya Janata Party in Maharashtra
- He contested Maharashtra Legislative Council (MLC) Elections in 2008
- He contested Maharashtra Legislative Assembly (MLA) Elections in 2009
- He was Chairman of the Special Committee appointed by BJP Maharashtra on proposed Jaitapur Nuclear Power Plant, to study in detail and suggest the policy decision to be adopted.

AT JNPT

Suresh Haware provided his expertise and experience to Asia's largest port at Navi Mumbai, as a Trustee nominated by the Union Government for a period of 2 years. His contribution at JNPT was held in high

esteem by the management. He played a crucial role while engineering the expansion of JNPT from Navi Mumbai to Palghar-Dahanu to Kokan and to a strategic location at Chabahar port in Iran.

AT SHRI SAIBABA SANSTHAN SHIRDI

As Chairman, Suresh Haware has been instrumental in implementing many reforms at Shri Saibaba Sansthan Trust, Shirdi under the leadership of Former Chief Minister of Maharashtra Hon Shri Devendra ji Fadnavis. These includes:

- Computerised Biometric Time Slot Darshan Management system, which helped reduce darshan time from 6 hours to just 45 minutes.

- Daily Blood Donation camp in Saibaba Temple campus. More than 55,000 units of blood are collected every year & distributed all over Maharashtra through blood banks.
- Production of Agarbattis (Incense sticks) through women self help groups from approximately 3 tonnes of flowers offered everyday on SaiBaba's Samadhi. More than 200 women got employment in this project.
- Implemented Clean Shirdi initiative making Shirdi the third cleanest city in India. Shirdi was

found to be the cleanest temple city in India during the nationwide survey by India Today and was awarded first prize at the hands of Honourable President of India.

- Innovative “SAISEVAK” scheme for the devotees benefitting more than 25000 devotees every year, by allowing them to offer seva at temple.
- 325 bed Sainath Hospital for patients, made free for patients, benefitting around 5 Lakh people every year

with President Ramnathji Kovind

- Organisation of Global Sai Temple Trustees Summit at Shirdi attended by **Hon. Shri Venkaiah ji Naidu, Vice President of India.**
- Free Meal-Prasad scheme for more than 50,000 devotees everyday
- ISO certification of Shree Saibaba Temple, Shirdi
- Commencement of Senior College (Arts-Commerce-Science) in Shirdi by Sansthan.
- Organisation of the celebration of Shri Saibaba Samadhi Centenary inaugurated by **Hon. Shri Ramnath ji Kovind, President of India.** These year long celebrations were attended by more than 3.5 crore devotees, and was concluded by Hon Shri Narendra ji Modi, Prime Minister of India. A large number of celebrities including RSS Sarsanghchalak Dr Mohanji Bhagwat, Hon Bhayyaji Joshi, Hon Shri Nitinji Gadkari, Shri Prakash Jawdekar, Shri Piyush Goyal, Shri Ravi Shankar Prasad and so on visited Shirdi and sought Saibaba's blessings.
- He has initiated many infrastructure projects at Shirdi including Inauguration of Shirdi Airport

with Prime Minister Narendra Modi

at the hands of **Hon Shri Ramnath Kovind, President of India**, Commencement of FM 103.7 special AIR radio station for Shirdi, Free

WiFi for entire Shirdi township, Construction of Modern Educational Complex spanning over 7.0 lakh sq.ft. to accommodate temple run schools/colleges having 6000 students, Advanced Darshan Queue Complex spanning over 3.0 lakh sq.ft. to support more than 30,000 devotees and upgradation of Saibaba Hospitals with newly procured 128 high end machinery and equipment.

with Manohar Parrikar

- Sai Knowledge park including Planetarium, Wax Museum of national heroes and Sai Shrushti (Gallery) etc.
- He has been working on the concept of Temple Management, an innovative concept in the religious environment.

SOCIAL RESPONSIBILITY...

One of the most important aspects of Suresh Haware has been his utmost dedication and commitment to the social bonding with the people at large. Suresh Haware was one of the key organizers of Baba Amte's Bharat Jodo Abhiyan in the state of Maharashtra. Some of the social activities undertaken by him could be mentioned as follows:

- 100 Book Banks and Self Study Centers in slum areas across Maharashtra.
- Establishment of FOUR formal schools in Navi Mumbai.
- Establishment of FIVE informal schools for children of construction labor at various sites.
- Establishment of SEVEN Charitable dispensaries for construction laborers and their family members at various construction sites.
- Establishment and running of TEN Ambulance projects through NGOs.
- Establishment of Women Empowerment Schemes.
- Distribution of school bags, water bottles, tiffin-pencil box, uniform, raincoat to the under privileged students.
- Distribution of Bedsheets, Blankets and Dispensary for construction labourers.

MOUNTAINEERING...

Dr Suresh Haware is an amateur mountaineer. He is active member of the Giripremi mountaineering group of Pune. He has scaled “**Island Peak**

Mountain” in Nepal up to 6,000 m. He has trekked up to “**Mount Everest Base Camp**”. He has climbed all major forts (Gadh) in Maharashtra.

“Your capacity varies according to the challenges you accept.”

Suresh Haware
Successfully climbed 6000m elevation in the Mt. Everest Himalayan region, Nepal on 12th April 2014

AWARDS AND ACCOLADES...

An impressive and people-oriented approach to business leads to recognition. The continued recognition and reverence over a period of time matures and the result is an Award or an accolade. With so much weight carried for the common people it was just in order that Haware Group under the leadership of Suresh Haware was recognized and revered by eminent establishments over these years. Some of these coveted Awards are as follows

State Awards

- (1) Excellence Award by Saturday Club international, Mumbai
- (2) Udyog Shree Vishesh Gaurav Puraskar at the hands of Dr R. A. Mashelkar, Mumbai
- (3) Entrepreneurial Excellence Award, Rotary Club District 3128, Western India region
- (4) Corporate Social Responsibility Award, Rambhau Mhalgi Prabodhini, Mumbai
- (5) Panchratna Udyog Shree Award, Lakshadweep, Mumbai

- (6) Udyog Ratna Award, Marathi Patralekhak Sangh, Mumbai
- (7) Maratha Vishwa Bhushan Award, Maratha Seva Sangh, Maharashtra.
- (8) Lord Buddha Pratishthan Award, Maharashtra
- (9) Bhim Ratna Award, Mumbai First Community

- (10) Affordable Housing Award, Accommodation Times, Mumbai
- (11) Most Innovative Project of the Year Award, The Times of India Group
- (12) Maharashtra State literary award for his book "Shidori" on business+.

National Awards

- (1) India's Cleanest Temple award for Shirdi Saibaba Temple and township by India Today at the hands of Honourable President of India Shri Ramnathji Kovind
- (2) Indian Achievers Award for Construction and Design, All India Achievers Foundation, New Delhi
- (3) Yashshree Puraskar by Maharashtra Times, The Times of India group.

- (4) Artist in Concrete Award by Loksatta, Marathi Daily, Indian Express Group and MCHI
- (5) Gold Medal and Ashray Ratna Award, International Study Center, Bengaluru
- (6) Bharatiya Nirman Shiromani Award, Institute of Economic Studies, New Delhi
- (7) Golden Star Award, Institute of Economic Studies, Bengaluru
- (8) Power Leader Award by World Consulting and Research Corporation, New Delhi
- (9) Iconic Affordable Project Award by The Times

Receiving Award from Mohanji Bhagwat

of India, Mumbai

- (10) Real Estate Icons award by Mid Day, Mumbai
- (11) Iconic Affordable Homes by Times Realty Icons
- (12) Icons of Thane by Maharashtra1 news channel, Mumbai
- (13) Iconic Thematic Project Award by The Times Realty Icons
- (14) Corporate Excellence Award by Lokmat, Mumbai.

International Awards

- (1) BIZZ Excellence Award for Business Excellence, World Confederation of Businesses,

Houston, USA

- (2) Glory of India Award, Institute of Economic Studies, New Delhi at the hands of Dy. Prime Minister, Thailand.
- (3) India's Most Promising Brand Award by Lord Swaraj Paul and Preeti Patel, MP (current Home Minister), London, UK.
- (4) Best Concept and Architectural Project of the Year 2018, at Annual Realty India Awards, Dubai,

माझ्या शिंदेरी या पुस्तकाला महाराष्ट्र शासनाचा मिळालेला पुरस्कार

The road ahead...

“I have been bestowed with sentiments to perform better in each of my initiatives with a scientific approach and I possess a strong commitment to the people of my country. I strive to convey my positive attitude to everyone who comes in my proximity and I am empowered with my team so as to fulfill the dreams of everyone in terms of a home of his own...”
