

About NIT Raipur

National Institute of Technology, Raipur, is recognized as an Institute of National Importance by the Government of India and is currently undergoing accelerated growth. It is one of the oldest and biggest institutes in the NIT system offering UG, PG and Ph.D. programmes in science and engineering. It has proven excellence in the field of science and technology over past few decades in central India.

About the Physics Department

The Department offers an M.Sc. in Physics, basic Physics to undergraduate engineering students, and PhD programme in all frontline areas of Physics, including luminescence materials, solar cells, III-V nitrides, and rare-earth thermo-electrics, among others. The Department is running various projects in experimental and theoretical condensed matter Physics, sponsored by the DST, CSIR, and CCOST. The Department has produced more than 35 PhDs so far.

Objectives:

The key objectives of the conference are to promote awareness and understanding of quantum materials and its applications in devices. The conference aims to bring together leading experts, researchers, and academicians to discuss advancements in quantum materials, devices and their transformative impact on technology and innovation.

Themes of NCQMD-2026

- Quantum dots
- 2D materials

- Energy materials
- Sustainable materials
- Superconducting materials
- Topological metals and semimetals
- Topological insulators
- Carbon based nanomaterials
- Biomaterials
- Optical materials
- Thermoelectric materials
- Spintronics materials
- Semiconductor materials
- Quantum Sensors
- Quantum electronics
- Quantum Computation

Registration Fee with GST (excluding publication charges)

For students – Rs. 2000/- +18% GST

For faculties – Rs. 3000/- +18% GST

For Industrial people – Rs. 5000/- +18% GST
