

NIT RAIPUR PLACEMENT POLICY 2011

We aim to place 100 percent students. In order to fulfil our aim we propose the following:

1. **One Person one job**: This will ensure that every student will get equal job opportunities and only few students do not consume up all the jobs.
2. If a person is placed in any of the **PSU** then, the placement is over for him/her.
3. If the recruited student does not join the company without intimating the details to the placement office, has to pay an amount of **20,000** to receive the passing certificate and security deposit from the institute.
4. Any student found involved in any sort of **unethical activities** or inappropriate behaviour in the college or during the conduction of placement procedure will be debarred from the further placement season.
